

RETAINED LONG TERM HSE CONSULTANT

Sector	International
Client	A global household name manufacturer
Service	Retained long term HSE Consultant
Project Days	6 days per month

CLIENT PROBLEM ?

The client are headquartered in Europe and without a dedicated HSE resource in the Gulf region.

Compliance with Federal and Emirate specific HSE laws, in addition to ensuring that staff, contractors and visitors to their site were kept safe, was rightly of an extremely high priority to the client. They also wished to have full insight into the risks and hazards present in their Gulf operations.

Bringing over to the UAE in-house resource from overseas is not a viable option for most companies due to the prohibitive costs of travel, subsistence, visas etc. In addition, the resource usually does not have an adequate insight into and knowledge of the local regions Federal and Emirate specific HSE laws. Utilising a competent UAE based HSE Consultancy such as Corporate OHS for project requirements or on a monthly retainer basis is often viewed as the most cost effective method of achieving the best quality results.

Corporate OHS offers HSE and risk management solutions, including outsourcing.
